### Spring Break Licensed Child Care Camps (Grades K–6)

The Y's approach to child care is unique. We believe that ensuring a sound basis for healthy child development and success begins with a place to connect and our child care programs give kids exactly that — space to play, run, dance, jump, and explore — a place where kids can be kids!

Each day, kids spend time outdoors, engage in plenty of physical activity, eat nutritious snacks, build relationships with friends and adults, and establish a foundation for their mental, emotional and physical well-being. Each week, kids will explore their community with exciting field trips, and swimming at the YMCA.

In addition to YMCA Financial Assistance, families who cannot afford the full cost of YMCA licensed child care can also apply for the Affordable Child Care Benefit.
